If the Legan boom had been started interests of Wisconsin. later in the season, there would have been brighter prospects for its lasting till the June bugs come.

General David Atwood, of the State Journal, has been commissioned by Pres. ident Arthur as commissioner from Wisconsin to the World's Exposition and cotton centennial at New Orleans.

The Rev. Dr. J. E. Irish, endowment agent of Lawrence university, preached at the Methodist church in Hudson, Sunday morning. He says he has raised \$27,-000 for the college in the past five months, and expects to make it \$100,000 before the close of the year.

An effort will be made this winter by saveral state legislatures to secure some labor reform. One proposition is by Governor Robinson, of Massachusotts, to compel all corporations to pay their help weekly. He also asks the legislature to enact a law providing for the settlement of small bankruptoics upon a system us favorable to the poor workingman as to his employer who fails for a great sum. Governor McLane, of Maryland, asks the legislature to pass a bill forbidding the employment of any child under 10 years of age in any manufactory, and providing that the working day of women and of children under 16 years of age, shall not exceed eight hours.

A card has been published by the Alden Brothers, Cincinnati, regarding the suffering caused by the floods, and reads

The towns and cities on the Ohio river have been visited by the greatest flood of the century. So great and appalling is the disaster, that pen fails to adequately describe the misery and destitution prodescribe the misory and destitution pre-yailing. Over one hundred thousand Paris, M. Laquerre receiving a wound in the people are homeless and destitute, and must be provided with food and clothing for weeks to come. We earnestly appeal to the newspaper fraternity to aid these unfortunate people immediately, by starting subscriptions and urging the necessity of haste. We feel assured that their wants need only be known to the public to secure a generous outpouring from those who are happy in the peaceful seourity of their homes. Subscriptions may be remitted to Henry C. Urner, chairman relief committee, Cincinnati. Acknowledgment will be made through the columns of the daily papers.

The Rev. Dr. J. P. Newman has at last been driven from his church in New York. He was a great power in that city four years ago, and while in Washington | Mass. was called "General Grant's pastor" because he officiated at the Metropolitan (Methodist) church, at which Grant worshipped. When General Grant moved to New York he attended Dr. Newman's church. An idea entered the heads of a large number of men who had more money than picty, that it would be a good thing to organize a new and an independent church. This was done, and Dr. Newman was called to the pastorate at a high salary. Things went on fairly well for a time, but discord finally came, which Men's Christian association of Chicago reripened into quarrels, and the church ports 30,000 to 40,000 men and boys unable to procure work, which is 20 per cent more than real intersects of the church will be the real interests of the church will be best served by the discontinuance of Dr. Newman as pastor. The doctor is probably fully convinced that when he forsook his own church to espouse one with popularity and money, he took his potatoes to a very poor market.

The Gazette is of the opinion that the special committee of the school board of Milwaukee acted wisely in reporting in favor of abandoning the practice of assigning home tasks for the children that cold. The rations issued monthly by the attend the public schools in that city, In many of the schools there it has been the custom for some time to compel the children in the lower grades to do considerable studying at home. The question as to the wisdom of the practice came up for discussion, many taking the ground that it was injurious to the scholars in a number of cases, and should be abandoned. Some children could accomplish their task in fifteen or twenty minates, but many others were required to work from one to three hours in order to finish the task. The whole matter was finally referred to a special committee, and a report has been received. The committee concludes that the practice of home assignments of severe tasks is physically and mentally injurious, and ought to be abandoned. "By this process of assigning home studies the children are hastened along through the curriculum and immersed in the study of subjects much beyond the compass of their immature minds, thus anticipating nature's time for the evolution of certain faculties, and fostering an unnatural precocity of growth. On the other hand, the amount of study exceeds the assimilating power of the young mind, and when this limit is trespossed upon, instruction and training are superseded by the educational vice called 'cram.'

The idea has got into the heads of majority of teachers that the only way to teach children is to cram education into them. There is far too much of this done in the public schools to the discredit of the teachers and to the mjury of the scholars. But there does not appear to be much hope for reform. The complaints come from all parts of the state. Children are made to "toe the mark," to sit in a certain pasition, to observe certain ridiculous rules regardserve certain ridiculous rules regarding "decerum," and so on, while their education is almost totally neglected. This was very much the condition of things in the Philadelphia public schools until James McAlistor was called there by the wisdom of the school board to take charge of the schools. He created a revolution and brightened the

Scenes and Incidents of the Disaster -- Tou Bodies Recovered -- Notes of the Flood---On a Relief Bont.

CINCINNATI, Feb. 10.-A terrible disaster occurred at the southwest corner of Pearl and Ludlow streets, in which ten people are known to have lost their lives. All night the enthusiasm.

For sale by Jansen, McClurg & Co., Chicago, and by the Janesville local trade under the rules, and succeeded in getting out a number. Search for the bodies trade. was made all the morning. This task was attended with great danger, as the tront walls are still standing, although liable to fall; and as the corner is surrounded by water over five feet deep, work is rendered more difficult. At noon, all having been reached that could be taken out, work was suspended till the water falls.

The dead, as reported by the rescued residents of the bouse, are: John W. Kyle, Maud Ellis, Mary E. Celter, James Ogdon, Bernhardt Weelinker, Mrs. B. Woelinker, Thomas Burke, and

Thomas Burke, Mrs. Thomas Burke, and Thomas Burke's two children.

Thomas Burke's two children.

The first four wore in the building Nos. 120 and 125 Rast Pearl street, and the others in Nos. 127 and 129, on the corner of Pearl and Ludlow. The search for the dead went on all the morning in spite of the danger of the work, and about 11:30 a. m. the body of a woman was removed from under the debris at the rear of No. 127. It was quite a large woman, plainly dressed, and wearing black kid gloves. It was identified as that of Maud Ellis. Her face and bare breasts were black and dirty, as was the dark calice dress. She evidently was sleeping when the accident happened. the dark calico dress. She evidently was sleeping when the accident happened. She had no shoes or stockings ou, and her feet and legs were badly bruised, while a small cat in her breast, from which the blood flowed, indicated that she had evidently been pinned down and drowned. At 12:40 the body of Bernhardt Woehnkor was reached and rear printing.

12:40 the body of Bernhardt Woehnkor was reached and recovered, and ten minutes later that of his wife. Another body was found about the same time as the others, but not removed. It was that of a woman, and lies under one of the partition walls. Only the feet could be searched and a work was fastened to one of these so that the body would be held in case the wall fell. It seems that the rar wall gave way and carried down the main part of the building with it, breaking them across. Thus the front rooms were split in two. Thus fact that the front walls remained standing was most providential, as otherwise there must have been a great less of life.

there must have been a great less of iffe.

During the entire day the vicinity of the accident was crewded with people, who not only filled the streets above the water line, but went out in boats to have a better view of the fatul buildings. At a casual glance the block appeared intact, as the fronts of both Fearl and Ludlow streets are still standing, but the back part of the bouses is gone. The rear wall gave way and carried with it the main part of the building, breaking them weres. Thus the front rooms were splitf in two. The fact that the front walls remained standing was most providential, as otherwise there must have been a much greater less of life. In one room occupied, by two In one room occupied by two men, one was engulfed, and the other's bed

men, one was engulfed, and the other's bed was not even disturbed. By placing ladders against the remaining wall the firemen were able to rescue the people still on the upper floors without much difficulty. The property loss is hard to estimate at present, but \$1,000 will probably cover it. The block was owned by Mrs. Shadinger, whose loss will be about \$5,000. The buildings were old, and have been in a had condition for some time, and young Woelnker, the only survivor of the family who were so suddenly taken away, says he will make the lamilady pay heavy damages for this accident, as he considers it all due to her neglect of the neessary repairs which was shown to her some time ago.

Some very narrow escapes from death were reported by the survivors of the shocking accident. Ben Woehnker says he did not awake until the crush came and he found himself going down into the water. With desporate strength he broke through the leth and along with his fitt and the water. With desperate strength he broke through the lath and plaster with his fist and crawled through the hole thus made. His arm and shoulder were badly bruised in the fall, but he was otherwise uninjured. W. H. Cox was one of the boarders on the third floor in a front room with William Huhn. His bed was in the south part of the room, and Huhn's at the north end. The room parted in the centre, precipitating Cox down and in the centre, precipitating Cox down and leaving Hubn unbarmed. Cox says he was

asloop until he struck the water, and felt bricks falling upon him. He managed to elimb upon the remaining part of the second floor, and got out and down a ladder. His hoad was badly cut up by bricks.

George Siegel's room, on the third floor, split in two, and his wardrobe went down, but himself and wife remained uninjured on part of the floor that held firm.

CINCINNATI, Feb. 16.—The river is fulling at the rate of three-fourths of an inch an hour, which is about the rate at which it rose. The pumps of the water-works can be started within three days, on be scarred with the stay before there will be any gas. The needs of those who have been driven from their homes are not lessened by the slight fall, but will rather increase with each day for a week or ten days to come.

The direct damage to property in Cincinnati is estimated at \$3,000,000, and that across the river in Covington and Nowport nt \$2,000,000 more,

SHAWNEETOWN, Ills., Feb. 10.—The river SHAWNERIOWS, HIS, FOD. 10.—The river is still rising half an inch an hour, showing no checking up, but the news from above is encouraging and a more hopeful feeling prevails. It is not expected that the flood will reach quite to last year's marks. Should it suggests them, however, many would be compelled to suffer, as no calculation has been made to meet such an emergency.

The Ohio & Mississippi railway is now running one train a day by means of transfers. The averago depth of water on the streets is about cleven feet. No serious accidents have happened, though now and then a dog-boat is upset in the swift current. The cold weather the last two days have repeated a large amount of surface has prevented a large amount of surface water from adding its volume to the swellen

water from adding its volume to the swonen streams. Fewer houses have floated away than during the two previous floods.

LAWRENCEBURG, Ind., Fob. 16.—After standing still for five hours, the river has begun to recode, and now has fallen about twelve inches. The height reached was about four feet higher than ever before known.
It is impossible to place an estimate or. the damager caused by the water but

\$1,050,000 Would not be placing the loss too \$1,050,000 Would not be placing the loss too high. Fully 300 dwellings have been overturned and carried away from their foundations. A number have gone down the river. The saw mill of Fitch & Co., built at a cost of \$40,000, is ontirely wrecked. Sutton's saw mill is swept away; loss, \$7,000.

Telegrams from all the principal cities in the country amounce that relief measures are in active operation everywhere.

are in active operation everywhere.

Another Rise at Pittsburg.

Pritsburg, Feb. 16.—About 125 families have so far received aid from the relief committee in the city hall at Allegheny. On Monday a number of mills and works of different kinds will start up, giving employment to a large number of idle men who are depending on the relief committee for food, and will then be in a position to help thomselves. The rivers rose quite rapidly during the day, but the river men do not look for a flood, as they think the great bulk of the water is already think the great bulk of the water is already down. In the Monongahela the marks showed twenty-one feet, most of which was showed twenty-one root, most of which was the Allegheny backwater, although the rivor was rising. The Allegheny was up to twenty-one feet ton inches, rising and running out fast. A portion of the tracks of the Pitts-burg & Western railroad below the Suspen-sion bridge were covered, and the water was well up on the wharf beyond. Both rivers came up about two feet in twenty-four hours.

Sweet Charity. New York, Feb. 16. -Mayor Edson has received on behalf of the general fund for the relief of the sufferers by the recent floods \$2,795; amount previously announced, \$2,261; total, \$5,056.

PHILADELPHIA, Feb. 10.—The citizens' committee having in charge the western flood fund, met for consultation. It was an Hood fund, met for consultation. It was announced that the Pennsylvania Railroad company had agreed to forward all goods to places along the route of the railroad free of charge. A resolution was adopted memorializing congress to increase the national appropriation for the sufferers from \$300,000 to \$1,000,000.

LOUISVILLE, Feb. 16 .- The steamer Mattle Hays, having on board \$25,000 worth of supplies of food, left for down the river in charge of Maj. Burke, U. S. A. The boat will go as far south as Shawneetown, Ills. Fifty thou-sand dollars more are in the hands of Gen. Rulus Saxton, commander of the post at Jeffersonville, for distribution to sufferers. The Kentucky legislature will probably vote \$73,000 mere, making \$100,000 in all given by he state for her new sufferers.

the state for her new sufferers.

CHICAGO, Fob. 18.—Numerous sums of money are being subscribed for the Ohio flood-sufferers. Grand Master Browning has issued a circular to the Masons, requesting that collections will be made and forwarded to Wiley W. Egan, the grand treasurer, of Chicago. Members of the board of trade sub-scribed over \$1,000. Subscriptions have been started also among printers and book-binders. Potter Palmor, of the Palmer house, gave \$500 to Erskine M. Pholps, chairman of the finance committee of the Red Cross society, who turned it over to John De Koven, treasurer of the lecal relief committee. Edward I. Galvin, agent for the excutive committee of the Red Cross society, has gone

committee to co-operate with Miss Clara Burton, president of the national association, and to distribute funds sent from Chicago by the Red Cross society. A meeting of the society will be held at the Falmer house to consider measures for relief.

Sir Randall H. Roberts, agent of the Wyndham company, called upon the mayor and announced that he had been authorized and announced that he had been authorized by the Vyndham company to tender the proceeds of a matinee, to be given on the 28th, for the benefit of the flood sufferers. Mr. Hooley donates the use of his theatre, and the entire proceeds will be turned over to the mayor to be distributed as he may The Bellef Boat.

WHEELING, W. Va., Fob. 16.—The Iron City relief boat reached this city shortly after neon, remaining about half an hour. Mayor J. A. Miller, of Wheeling, met the committee and effered to aid. He will expect aid from the government boat, and says it is needed sadly. At Wellsburg the citizens crowded down

to the wharf to greet the boat, it being regarded heat to give immediate relief here. G. W. Colwell, chairman of the relief committee, came on board and made an urgent re-quest for food, saying that the \$1,000 granted by the government will be spent shortly. Twenty sacks of flour, some corameal, sugar, hams, coffee and mackerel were turned over to the com: At Warren, Jefferson county, Ohio, there

was a fearful amount of destitution. Thirwas a fearful amount of designature. Therefore houses were entirely washed away, dozens of families not having a single article of value left. A considerable quantity of all sorts of supplies were distributed by the commence of the power and then mittee, who went among the houses, and then left the general relief to the local committee

in charge.

At 6 o'clock the beat was tied up for th night. There are no telegraph offices be-tween Moundsville and Murietta, so the boat will be shut off from the outside world.

Pigeon-Shooting Match. Long Buanch, N. J., Fob. 16.—A large number of gontlemen from New York and Philadelphia were present at the Senside park to witness the pigeon-shooting match be-tween Dr. A. Belton, of New York, and S. G. Mount, a young Englishman who is at present on a visit to this country. The terms of the mutch were fifty birds each with thirty the match were fitty bries stell which thirty yards rise. The trophy was \$250. Mount succeeded in killing forty-three out of the possible fifty, while Dr. Belton was left behind with a score of forty. A sweepstake of lifteen was then shot for, which Belton won

RAWLINS' BACK SUPPORTING Shoulder Braces.

A varied experience amought Children and growing Girls Teacher and medical attendant, lead Miss Emma J. Rawlins, the inventor of this BRAUE, to believe that stooping shoulders and most spinal affections aming Girls arise from the following cauces: Debilisted muscles, owing to a lack of free and unrestricted exercise such as is allowed their brothers, of bad positions in standing and setting.

This Bruce affords a firm, yet gentle, SUPPORT TO THE BACK, at the same time, drawing the shoulders backwards and downwards, expanding the chest and giving a healthy and graceful position.

The German Chancellor and the Lasker Resolutions. .

He Is Reported to Have Ordered Them Returned to Secretary Frelinghuysen --- Other Foreign Notes.

COLOGNE, Feb. 16.—The Cologne Gazette states that Prince Bismarck has seen to Baron Eisendecher, the Gorman minister at Baron Eisandecher, the Gorman minister washington, the resolutions passed by congress on the occasion of the death of Herr Lester, and forwarded to United States Minister Sargent for presentation to Pridce Bismarck and the reichtag. Minister Eisandecher is instructed to hand the resolutions of Sargent Preliceburger the position of to Secretary Frelinghuysen, the position of Herr Lasker not having been such as to warrant their presentation.

LONDON, Feb. 16.—The Times says that al-though the above seems incredible, the fact is that the relatious between Washington and Berlin are in a state of great tension, chiefly

owing to the pig-flesh question.
The Times concludes: "One thing is certain. We have not heard the last of the Lasker incident. The Americans are much too proud, too sensitive, and too independent for that."

The Canadian Fisheries.

OTTAWA, Ont., Feb. 16.-In the house of commons Mr. O'Brien moved for a committee to inquire into the grievance of Ontario iishermen, alleging that in-shore fishing is now nearly destroyed, and that the fishermon are obliged to go about twenty miles from shore, and use larger boats and more expensive oets. The size of the mesh used by infand fishermen for the last few years was four and three-forth inches. The law now requires them to be five inch and while Canadian fishermen were harrassed with restrictions the Americans were allowed to fish at pleasure. They capture small fish and soil them in the states. The consequence will be that all the waters will be soon depleted. He advocated an agreement with the United States for a uniform law on this subject. This discussion brought out some opinions regarding the actions of the Willerten. ommons Mr. O'Brien moved for a committee We have received the past ten abrought out some opinions regarding the action of the Washington government in abroughting the fishery clauses of the Washington treaty, but the matter went over with

Sankim.

Since Admiral Howett assumed command here everything has been put in man-of-war order. Perfect justice is dispensed, and the inhabitants are contented. The fact that proparations are making at Caire to transport a large force to Suakin, and the fact that Gludstone asks for £250,000 to defray that Gludstone asks for £250,000 to defray the second in the sec expenses, portend more than the expedition to relieve Tokar.

CARO, Feb. 16,—There was an exciting scone at the circus. An Italian acrobat unfurled the Italian flag, whereupon an English officer walked into the areas and sized itamid great excitoment. The acrobat soon recovered the flag, however, and waved it triumphantly, when he was struck by a Frenchman A redecement. man. A molec ensued. Finally some English officers managed to separate the combatants. The Italian consul demanded satisfaction for the insult to the flag. It is hoped the affair will be amicably settled.

Alarm at Constantinople.

London, Feb. 10.—Serious alarm is feltby the porte over the enthusiasm excited
among the Arabs in Yemen and Jeddah over
the recent victories of the false prophet.
Universal excitement excitement exists in
the military departments at Constantinople,
and troops and ammunition are being placed
in readiness for transportation to the airected
provinces. Dispatches from Yemen state provinces. Dispatches from Yemen state that emissaries of El Mahdi have excited the Arabs to an uprising in his favor, and that the Turkish authorities will require large re-

enforcements to quell it. Gordon's Advice.

CAIRO, Feb. 16.—Gen. Gordon telegraphs:
"I have formed a committee of defense with
well-to-do families of Burber. Freelpitate
action muy throw them into the arms of the
unemy. Patience is alone requisite." He
asks the authorities of Cairo to send arms and ition for the Berberines. The rebels killed at Sinkat 200 women and a number of children.

Osman Digna's Purpose. Suakim Feb. 16.-Information has been brought in by spies that Osman Digna will endeavor to capture Tokar, and take Suakim by storm before the English relief force ar-

ves from Suez. Gordon Wants Money and Guns. CARO, Feb. 16.—Sir Evelyn Baring has reeived a telegram from Gen. Gordon asking that money and arms be forwarded to him. He does not explain the request, but speaks of the situation hopefully.

|| What Will the Faculty Do Next? UTICA, N. Y., Feb. 10.—The faculty of Hamilton college has suspended two seniors and one junior for participation in Monday's bolt. The seniors hold a meeting and re-quested the faculty to either return the "susticated" members or to suspend the entire class, as all were equally guilty. No attention was paid to the petition and the seniors then agreed to suspend themselves and never to go into recitations again until the two suspended seniors were with them. Many of the soniors have passed through Utica on their way home. All will be out of Clinton soon, and now Hamilton college is without a senior class. The class numbered fifty-three men. The "rusticated" seniors stood vory high. Considerable interest is manifested as to what the faculty will do he

Discussion of Bank Circulation in

the Senate. The Manning-Chalmers Case ... The Contestant Loses--- Danville Blots ... New's Resignation Accepted

--- The Labor Question. WASHINGTON CITY, Feb. 16.—In the discussion on the bill relating to the national bank currency, in the senate, Mr. Plumb said every material interest of the country practically conspired to an early extinction of the mational debt. Until the debt is wiped to the country practically constitute that the enterties of the country practically constitute that the country is the country of the countr of the national dobt. Until the debt is wheel out we could not settle the question of national currency. The discussion had developed the utmost contrarity of opinion as to every possible scheme that can be devised for the continuance of the national. currency. None of the pending proposi-tions, he contended, would give permanent relief. He offered an amendment providing that whenever the circulation of any national bank shall be surrendered the secretary bank shall be surrendered the secretary of the treasury shall issue an equivalent amount of treasury shall issue an equivalent amount of treasury shall issue an equivalent amount of treasury and the property of the property of the property of the discharge of the obligations of the government. Jones, of Florida, criticised Plumb's amendment, contending that it would inaugurate a complete revolution in the system of furnishing currency. Shorman's amendment, that if any bonds deposited bear a higher rate of annual interest than if per cent, additional circulating notes shall be issued equal in amount to one-built of the interest accruing on such bonds before their maturity in excess of 3 per cent, per annum, was rejected by 7 yeas to 42 nays. annum, was rejected by 7 yeas to 42 nays.

The Danville Investigation. Washington City, Feb. 16.—In the investigation into the causes of the Danville riot, a number of witnesses were examined.

riot, a number of witnesses were examined. The white men testified that the negroes were insolent, and that there was danger of an uprising; that they were armed, and that if the whites had not presented a bold front the case would have been much worso. Also that threats were made by the negroes that alarmed the white people. Soveral of the witnesses declined to say whether they shot or not. The testimony on the part of the whites was to the effect on the part of the whites was to the effect that a feeling of dread pervaded the com-munity which caused the whites to go armed, munity which caused the whites to go arroad, and that a light between a white man and a negre precipitated the trouble. The colored men swore that there was a prearranged plan on the part of the whites to cause trouble; that Barbour said a week before that Barbour said a week before the election that the Democrats intended to win the day by fair means or foul, and that the colored men increly acted on the defensive. It was testifed that when the colored policemen at fied that when the colored policemen atthat when the colored policeled have the tempted to disperse the crowds they were ordered away by the whites, and one of the white witnesses said the policemen were "ordered" because they were "niggers." The investigation is adjourned until Monday.

"Ring Down the Curtain." WASHINGTON CHY, Feb. 16, —After the pre-vious question on the Manning-Chalmers contested election case in the house had been or-dered, Mr. Cartin advanced to the arena in front of the chair, followed closely by Mr Manning, who had been scated near him, and with something of dramatic effect exclaimed: "I present Gen. Manning on the certificate of

If present Gon. Manning on the certificate of the governor of a great and loyal state with the seal of that great state attacked, and I ask that he now be sworn in."

Calkins made the point of order that the house had transforred the jurisdiction of this case to a committee. The speaker said that the point of order was not necessary, as the chair would not undertake to swear in any one while the question of his right to be swear in vastraine considered by the house.

one while the question of his right to be sworn in was-being considered by the house. Bellord exclaimed: "Now ring down the curtain, the play is over."

This remark occasioned loud laughter. Mesers. Curtin and Manning then withdrew.

A vote was then taken, resulting in the defeat of the resolution to seat Manning—167 to 92.

The Labor Question.

WASHINGTON CITY. Feb. 16.—Mr. Thomas Mollon, a banker of Pittsburg and an exten-sive coal dealer and coke manufacturer, was sive coal doaler and coke manufacturer, was given a hearing by the house committee on labor. He opposed the eight-hour law and the propositions to probibit contracts with foreigners for labor before they come to the United States. He thought organizations of capital rather tended to the vate labor than oppress it, and proposed as a recourse for laborers the organization of co-operative associations. Labor organizations laborers and were vicious. The question of laborers and were vicious. The question of labor should not be interfered with. Secretary Lincoln at Work. Washington City, Feb. 16.-Secretary Lincoln is pushing ahead the work of reliev-ing the Ohio flood sufferers successfully and morgetically. Innumerable telegrams have already been received at the department commending what has been done. The sec-retary has taken steps to co-operate with the different relief associations that have been organized, and already a number of steamer laden with provisions, clothing and medicine

have started for the principal cities.

The mayor of Evansville, Ind., has decline aid from the government, saying that that city will not only take care of its own people, but will help its neighbors.

The Copiah Investigation.
Washington City, Feb. 16.—Telegram
from New Orleans, where the senate sub committee is investigating the killing of J P. Matthews at the polis at Hazelhurst Copiah county, Mississippi, state that th copinn country, Amsaissippi, see ballet the cylidence so far is simply corroborative of the accounts published at the time, that Matthews was killed for being a Republican, who would organize his party is that country. Three witnesses, the brother and son of the murdered man and A. W. Buynatt, cheliuman of the Independent over the Burnett, chairman of the Independent execu tive committee, have given their testimony. It was also testified that other Republican had been whipped and otherwise maltreated.

Will Oppose the Tariff Bill. WASHINGTON CITY, Feb. 16 .- Mr. Hiscock of the ways and means committee, wher asked concarning the attitude that would be taken by the Republican members of that committee regarding the tariff bill, replied: "They will oppose it to a man, and will strongly oppose any change in the existing law that will tend to disturb the business of

WASHINGTON CITY, Feb. 16.—An additional appropriation of \$300,000 for the flooded districts was rushed through congress and signed by the president. The house de-feated a resolution declaring that Manning was entitled to a seat from Mississippi. The senate spent an hour in debate on the bill to provide for the issue of circulating notes to ational banks. .

Killed with a Bread-Knife. WASHINGTON CITY, Peb. 16.—In a fight at the Baltimore & Potomac railroad restaurant here between two colored employes, David Brice killed Peter Washington with a bread-knife. Brice was arrested.

(New's Resignation Accepted. Washington City, Feb. 10.—The president has accepted the resignation of John C. New, assistant secretary of the treasury, to take effect immediately. Notes.

Washington Ciry, Feb. 16.—The senate confirmed the nominations of Wilber Goodspeed to be United States marshal for the northern district of Ohio, and W. C. McKee, ostraaster at Montezuma, Iowa. with optum. Brown's Teething Cordial is a reliable remedy.

The house bank and currency committee will report Mr. Summers's bill limiting the liability of national banks to that of other debtors named in the limited liability section of the revised statutes.

GOULD'S PLANS

As Deduced from Certain Circumstances by a Newspaper Man.

Boston, Feb. 10.—The Transcript says: Probably no difinite plan for the future of the Oregon Transcontinental and its controlled properties by the management but it. the Oregon Transcontinental and its con-trolled properties by the managers, but it is true that as soon as practicable the Oregon Transcontinental will wind up its affairs. Of course it has its \$\$,000,000 one year lean, with a two years' option, to be taken care of, and its \$\$,000,000 of bonds secured by Northern Pacific branch bonds soon to be made Pacific branch bonds, soon to be made, \$10,000,000 in amount. The latest informal plan for closing up the Oregon Transconti-nental affairs is believed to have originated with the Gould party and to be as follows:
The Oregon Railway & Navigation
company to be re-leased to the Northern Facific Railroad company, and the \$15,000,000
of stock of the Navigation company now of stock of the Navigation company now owned and pledged for loans by the Oregon Transcontinental company to be sold to pay the debts of the Transcontinental company, and give the Oregon Transcontinental unimpaired control of the Northern Pacific company, Meanwhile Mr. Gould will have beught the control of the Oregon Transcontinental for less than \$5,000,000, in the market. Mr. Gould will then be in a stronger position than over before to dictate combinations to the Union and Central Pacific railroad companies. Of course it is impossible to find official confirmation of these plans, but they are the result of carethese plans, but they are the result of careful study of the whole situation as represented by those within and without. Failure Are Fulse. Boston, Fob. 16.-The Globe prints an niterview with John B. Schoeffel, Henry E. Abbey's partner, with reference to the reported failure of Mr. Abbey. Schoeffel says that Abbey has not failed, will not fail, and that they have made money, though losing on the opera season. The income from the Henry Irving, Mary Anderson, Grand opera house, New York, and Park theatre, Boston, seasons will equal or exceed the estimates of \$200,000. And the opera deficit will not be more than \$50,000. Schoolfel says that if Mapleson can buy up any unraid claims of Abbey & buy up any unpaid claims of Abbay & Schooffel be will find it more profitable than managing an opera company. Schoolfel further says that Abboy will not accopt the direction of the Metropolitan Opera company next year under existing circumstances.

The Iowa Legislature.

DES MOINES, Iowa, Fab. 10.—In the senate the committee reported in favor of the bill providing a state superintendent of public buildings, to have control of the construction thereof and of county buildings on the request of supervisors. Also in favor of struction thereof and of county buildings on the request of supervisors. Also, in favor of a bill to provide a broad and tiberal course of study at the Agricultural college in agricultural, industrial and military branches. On the pardon of E. J. Bruce, imprisoned for murder, a majority report was submitted in favor of a pardon on condition that he abstain totally from the use of all intexicating liquors. The misority report was against the reactor. The committee reported in favor of pardon. The committee reported in favor of the appropriation for a school for idiots. Russell offered a monoral to congress asking for a law muking judgments in the federal courts a lien only in counties where judg-ment is rendered, and the judgment is re-

corded. Donnan's bill was taken up on Gault's pen-alty amendment, when Hall moved to send it to the judiciary committee to ascertain whother or not a penalty was necessary. A long discussion ensued, in which a diversity of opinion provailed among the friends of the bill as to whether or not the penalty of the old law for selling whisky would apply to the sale of ale and beer, made illegal under this new law, but which were legal under the old law. The motion was lost. Clark offered a substitute for the whole but did a proven for the whole, but adds a bill which covers the same ground and defines intoxicating liquors, and repeals section 1,555 of the code. Pending the question the senate adjourned. The house was not in session.

The Temperance Lecturers Last

[Chicago Tribune.]
John E. Toogh contemplates a departure from the Iyosum platform to raligious revivalism. He told a reportor that prefanity was his besetting sin. He was not at all inclined to intersperse his ordinary conversation with caths, but when suddenly excited a whopper was apt to pop out of his mouth. "I've got the biggest and tenderest corns that ever grow on feet," he said. "I was waiting our railroad must from last summer. It was m a railroad platform last summer. It was on a railroad platform last summer. It was a moist day, and my corns were as sensitive as so many barometers. A lubber of a boy tramped along past ms, and every step of his would have driven a pile at a single stroke. I pulled in my feet as far as I could, and folt grateful when he got by me. But my safety was functed, not real. He turned before I know it, and brought his feet down square and hard right on mine. I let out some of the most direction! the most direct and unequivocal curses that were ever uttered. He fled in dismay to a remote corner of the platform. I'd made, up ny mind before that to become a Christian and the profanity was no more than out be-fore it was repented. I went to the boy and apologized. That was my last swearing. don't think I shell ever swear again."

Stage Kisses Unpleasant.

"Nobody on the stage," said an old actress who used to be a reigning star many years ago, "neither man nor woman, kisses from this ground on the stage, even beyond the paint and grease idea. Actresses who consent to be kissed on the stage must want to be kissed

very badly—that's my experience." Last year, in the United States, there were an an average two nurders and one suicide a day, and two hangings and one lynching a week.

One of the most commendable qualities in the make up of any man is enter prise. Without it, life is possible to be Occasionally men are known to live to a bad old age, and go out to try the realities of the next existence, void of the least semblance of the gift that makes this life successful, and certainly can not detract from the lustre of the next. Fully impressed with this fidea. and becoming somewhat tired of the hum-drum life incident to constant association with bottles, plasters and bills an enterprising east side druggist decided to add to the attractions of his place of business, a small menagerie. He did not intend to open an elaborate winter garden, or in fact anything of that nature; but simply proposes to select a few choice, well-tamed animals, and keep them for his own amusement and at the same time entertain his patrons when business was dull. He had never traveled with a menagene, and knew but proy; but close observation, as he had hurried through the animal tent on his way to the circus, had indelibly stamped on his mind the fact that a menagorie questions. not complete without a representation of tho ferocious beast, commonly called bears. So, very naturally, in casting about for the first selection on the list a

bear was thought of. The Angle worm club was consulted and an effort made to induce them to go out in the wilds of Black Hawk, or some other jungle near by and capture one of their specie; but he was told that bear hunting was altogether too tame. Turning away with disgust he said he would go out single handed ance, and his bail of \$750 was declared and alone. The excitement might be tame, but the bear would be tamer. He forfeited by the judge. It is understood that Canary is in the city, but that he went, and returned alive, bringing with him a genuine bear, which is now on exhibition at the store of the enterprising

druggist, opposite the Gazette office.

What though his path is beset conversation with an olderly gentleman who was also detained at that place, and waiting for a train going west on the main line. After ascertaining that we were from Janesville, and well acquainted with the people, he became somowhat agitated, and said that he, too, had been in Janesville, but had not heard from there in over twenty years. He informed us that he visited Janesville about 1858; that he genius will catch the passing sunbeam and, at a stroke, give it immortality; so was then traveling disposing of a new method for computing interest; and of man, the creature of a moment, receives the stamp of immortality from the light ma." And, though you should lose your life in the attempt, accorded him at that time by far colipsed anything he had ever anticipated, and die—the places that know us now will soon know us no more forever—the grave must claim its victum and the worm its would never be forgotten by him. We assured him that the citizens of Janesville were noted sor their kind hospitality to strangers, and were never known to send a stranger—not leven a tramp out of the city hungry; -that this trait was inherited from the early settlers of the town, and that the people of to-day were always ready to welcome strangers with the right hand of fellowship. That at the time he spoke of, Janesville was a frontier town on the railroad, and had a large floating population, here to-day, and somewhere else to-morrow; but now we had a boautiful little city of 12,000 people; out of debt, plenty of schools, good churches, and all that tended to make people content and happy. That we had as snugly built little city as could be found in the west, and it was all paid for. The elderly gentleman remained silent for a few moments, and then pull-

ing out an old memorandum book, which looked as if it had seen service in the war, he said: "Yes, sir, I was in Janesville in '58, and I there formed the acquaintance of a number of the leading citizens some of whom I shall never forget, and as you say you are well acquainted there, perhaps you Does the tenets of our Order require the shedding of innocent blood?
